Google Sheets templates don't always lead to boring business documents. They can have surprising time-saving uses when you apply them to everyday situations with your family. Although some official templates are used in the Google Sheets gallery, many more can be found on third-party sites. We went on a search and found a variety of Google Letters templates you can use around your kitchen, gym, garage, and when planning a vacation. These simple templates won't drown you too much data, too. Family chores Family chores can be boring and no one does them with passion. Use this template to make your work easier. Take the area and not only assign responsibility, but also give your family some motivation to complete each one. One template can cover seven weeks of homework. Home Inventory Spreadsheet Vertex42 is known for its universe of free templates. The list of domestic stocks will help you keep a running list of domestic assets for insurance purposes. You can also use it to track everything when you need to move into a new house. The free Google Sheets template also works with Excel and OpenOffice. Association Tracking Are you involved in your children's study? This is a useful template for tracking all school tasks that are in progress. Add items or courses to the Subjects tab. Then complete it with tasks, status, time required, when they plan to do it, and when it's due. Vehicle Maintenance Log The Vehicle Maintenance Log from Vertex42 helps you keep records of each service date, work done, mileage in service, and costs. Enter the dates of replaced parts and fluids, and you can estimate the cost of future replacements and schedule them. You can keep the template next to the service plan provided by the manufacturer and keep your car in the highest condition. Health Workout Chart This is a simple printing template from Vertex42. You don't want to spend a lot of time tracking files and repeating. Jot them down quickly as you gradually increase the intensity of your workouts. Use a template for both cardio and strength training exercises. Habit Tracker Spreadsheet The custom tracking table template may first look overwhelming with multiple tabs. But ease into it and you'll see that it will only take two minutes to fill each week, or just a minute if you use it every day. The template gives you both simple and detailed breakdowns. Tracking your habits will show you the ones you need to focus on. If you are visually inclined, you can use charts to look at your progress over time. The author also added different versions of the tracker, which you can try by following the instructions. Money Monthly Budget This official Google Letters template provides you with a microfinance of your financial situation for a month. Use one card, such as a balance sheet, and another to plan expenses under different headings. This is a simple template that everyone with a basic sense of money can use throughout the month. Savings Calculators The trick to early retirement is to save on time and wisely. This is a handy template and calculator rolled into one that could allow you to do just that. The template helps you achieve your goals by showing you the future value of your savings and investments. 50/30/20 Budget from a Simple Budget Planner In his own words, Bobby Hoyt teaches millennials how to make more money, invest more money, and pay off debt. While there are several budget templates on your site, we would like your attention to this unique 50/30/20 budget planner. The template builds on a simple philosophy of personal finance – divide 50% of your income according to your needs, 30% on wishes and 20% on savings. Then leave your savings compound over time. Money management is as simple as this. Travel Travel Planner with Pros and Cons Travel Planning can be impulsive or well thought out. If you are a fan of the latter, then this nicely designed official Google Sheets template is for you. If you have multiple goals in your bucket list, use columns to consider their pros and cons before narrowing the itinerary. Holiday Checklist The thoughtful part about this holiday packing list template is that it has a separate tab for kids. You can forget about the telescope, but you can't do it without their Nintendo and charger. So print well before the date of travel and start organizing your bags. And when you're on Google Drive, look at the usefulness of Google Forms as a handy spending tracker. Various Simple To-Do Checklist simple checklist is still one of the most powerful planning tools known to man. Everyone from surgeons to astronauts uses it. You can do this on any analog or digital tool, but this template is so nicely formatted. Use the Google Sheets template gallery to find it, and then press Print. Food To Food List Planning and food planning are timesaving exercises if have a busy life. It can also be a money-saving one because it blocks you from impulse buys. This free template helps you unload your plans a week in advance and then fill your shopping cart. Request access editing to get a copy of the template. This might even motivate you to start thinking about building a smart kitchen and save more time. Google 2020 Sheet Calendar We end with a simple calendar template. You can have a Google calendar on your computer and mobile, but there's still a small place on the fridge door for easy day and month layout. This printable calendar template is just for it. You can customize your calendar with your own pictures. Then print the year or do it one month at a time. Tame repetitive tasks with Google letter templates Google template and printer can be great partners. Think about your unique situation at home and how you can save a few seconds with a template. Google Docs have plenty of powerful tools (such as these useful Google Drive add-ons) that smedule an ordinary page on a beautiful document. You can save this document as a template and use it if necessary. Healthy eating: One week of food Do you need any instructions in the food department?
